Subject: No Antibiotics for Healthy Animals
Auto forwarded by a Rule

I urge you to ban the use of antibiotics routinely used in animal feed. While this practice may be helpful for the growth of the animal and the profit of the grower, it creates antibiotic-resistant bacteria.

I avoid taking unnecessary antibiotics, yet they are fed to me daily by the meat industry. My efforts to protect my future health are rendered useless by the excessive use of these important medicines by the meat providers.

Please consider the petition filed by CSPI on this matter.

Thank you for your consideration.
